PROJECTS

Next-Generation Academic Portal, *Full-Stack Web Application Development* 04/2025 – 02/2026

- Developed a web-based academic portal to manage student and school information.
- Designed responsive user interfaces using React and modern web technologies.
- Integrated front-end and back-end components to support data management and user interaction.
- Implemented database-driven features for efficient information storage and retrieval.
- Collaborated with team members during internship projects and practical web development training.

Personal Portfolio Website , *Full-Stack Web Development Project* 04/2024 – Present

- Developed a responsive multilingual portfolio website using React, TypeScript, and Tailwind CSS.
- Implemented English and Japanese language support with i18next.
- Added dark/light mode and mobile-responsive design.
- Showcased projects, skills, education, and professional experience.

Task Management Application , *Simple Task Management Web Application* 11/2025 – 12/2025

- Developed a multilingual task management web application with English, Japanese, and Filipino (Tagalog) language support.
- Built using React, Node.js, Express, and MongoDB.
- Implemented task creation, editing, deletion, and status management features.
- Designed a responsive user interface and integrated RESTful APIs for efficient task management.

Pomodoro Study Timer , *Pomodoro Study Timer* 07/2025 – 07/2025

- Developed a simple Pomodoro timer web application for study and productivity management.
- Implemented focus, short break, and long break timer functionality.
- Designed a responsive and user-friendly interface for desktop and mobile devices.
- Applied JavaScript-based timer logic and modern front-end development practices.

Seven Apparel , *E-Commerce Website* 01/2025 – 03/2025

- Developed a simple responsive e-commerce website for clothing products.
- Designed product browsing and user-friendly shopping interfaces.
- Built using React, JavaScript, and modern front-end development practices.
- Optimized for desktop and mobile devices.
